Share memories with Facebook, Instagram, Tumblr, Pinterest, Twitter, Whatsapp, Lion, Wechat, Weibo, ...==More beautiful collage templates will always be updated==Contact us:devkrushna.technology@gmail.com October 21, 2019 Version 3.0.7 - Add Special Diwali Photo Collage- Enhanced User Experience - Various Improvements Really enjoy this app. I'm always using it because I'm one of those people who takes a lot of pictures. It's fun to rearrange your photos and make a collage for different events or just to jazz up their pictures when sharing them! Thank... I bought I already had this app, so I was surprised when I clicked on the photo collage on the home screen of the app that went to the App Store so I could download another app. It seems that the developer has put a bunch of different apps on the home screen, fooling you into downloading all of them. Two are photo collage apps and you can't really tell which app is the one you're using unless you go to the App Store and show if you downloaded it or not. I decided to give her a second chance and try to use her, but I found out I was wasting my time. After the initial download, you must individually download each unique photo frame. Ads and videos also appear every few seconds to download frames. There's no way to remove ads through an in-app purchase. The developer should have been only in advance and charged a small price for the app and included the Downloading, Who is going to waste time downloading each frame when there are so many to choose from and watch an ad or video every 3 seconds just to do so? Not me. There are so many other amazing photo collage apps, even other free ones that are easy to use unlike this one. I will be sticking with others and deleting this As the fact that there are more options than most image applications I tried without having to pay the developer, Hashbhai Issamalya, did not provide details about its privacy practices and data manipulation to Apple. For more information, see the developer's privacy policy. The developer will be required to provide privacy details when submitting the next update of the app. App Support BeautyPlus Privacy Policy - Magical Camera Apply beautiful effects to your photos The official photo app from Google Edit and adds thousands of effects to your photos Adobe Photoshop Lightroom A stylish way to organize your photos A professional photo editor Create videos with simple steps Edit and animate videos on your smartphone A fun way to take selfies Just hover over the photo added : A green smiley means that the image is suitable for printing. Note: Our collage editor only supports JPEG photos. We print up to a maximum size of 120 x 90 cm (100 x 100 cm for square templates). You'll find all available dimensions by clicking the i symbol in the upper-right corner. You can choose your preferred print size after the collage is finished. Yes! Click the picture and select the edit symbol. Here, you can rotate, cut and turn your photo into black & white. Absolutely! You can save the photo collage and edit it later. Just click the green floppy disk icon, enter your email address and you'll get a link with stored collage. Yes! You can share your project with a friend or family member by clicking on Invite a Friend and entering their email address. Your friend can either add photos to your project or edit the collage. That's totally up to you and the settings you choose. We offer templates for 100 max images. You can choose from 250 different templates. Here you will find all the templates!Wanna create something with more than 100 images? Maybe a photo mosaic could be something for you. Yes! After purchasing a digital file, you can send as many electronic cards as you want. Of course, you can also print collage whenever you want. There are a lot of templates with text option. To see all text layouts, set the filter for all templates to text. You can also create an individual collage of text – for examples with names or initials. Go to Letter and Collage NameThe fastest way is our Next Day EXPRESS delivery service: You collage will deliver the next business day if the order is placed before 11 a.m.. If you're not in a hurry, choose our standard delivery service. Most of our products are delivered within 48 hours. We print on canvas, acrylic glass (plexiglass), aluminum and poster. Choose the product and size after you finish the collage - during the order. Yes, you can! Once you've created the collage, you can buy a high-resolution digital file. The JPEG file is available in three different quality versions - up to 20 megapixels. The file is suitable for almost any printing method. If your uploaded photos are the same color (here orange, brown), the collage will look smoother. This can be done if you take photos from the same series of images. If the uploaded photos are the same color as the background (here white), the collage grid will disappear due to blind spots. By using images with a different color setting, you can clearly see the collage grid. Avoid using overly detailed images. Use clear and recognizable image content. If people look outside the collage, the result may seem less associated. People look at the center of the collage the result will be more balanced. A collage will look even smoother if there is an overall topic (here's the wedding). Popular topics are birthdays, weddings, holidays and graduations. Both the background color and the text color can be edited. Make sure the background color won't draw attention from the collage. Multiple use of unique images can harmonize a collage and also create a fun game: Find the match. The more collage images it has the better it will work. If your faces are cut, you may lose the most important content. No cut face will lead to an aesthetic result. (f) Your own storytelling machine! If a picture is worth a thousand words, then what is a photo collage worth? BeFunky's Collage Maker empowers you to easily create stunning online photo collages.
